I was told that these "students" have been set up by their teachers to go after our decision to reduce K-12 budget. I am not sure you are getting the correct information. That is the reason I wanted you to attend rather than putting me, or someone like Anthony who does not know the ins and out of the education budget, in that arena. Maybe you can coordinate a different time for you to appear at the Council meeting? I do want you to be there to address these students. Also, I don't think it was a good idea for you to tell Walt R that we think it was set up as an "ambush"! We do not need to be discussing our concerns with the outside world, especially someone like Walt who is not our loyal friend. Do you understand what I'm getting at here?

I just ran into Walt Ruffles and asked him about this meeting. He said it is about 15 high school students. This is not an abush and he told me quite frankly not that big of deal. I think Anthony can handle this fine, but again I will do whatever you want.

Governor,

There is some confusion here. I did not refuse to go to this meeting because of a hotel opening. For several months, I have been coordinating meetings with Garry Goett and NDOT. I know Garry mentioned this to you as the Black Tie event. Garry personally requested I be with him at meetings on the 6th. I am just trying to keep him happy. He likes working with me and wants me to be staff person from your office at this particular meeting. If you still want me to go to this other meeting, I will let him know that you have requested I be elsewhere. I will do what you want.

Thank you.

Well, the letter still needs to go out, because it is not a question of "not asking for the tickets", but rather that there was a request for better seating and Nick "accepted" the "free" tickets. It doesn't matter whether or not he "asked" for them. Nick has a rather influential position in the administration and the gift of tickets could be viewed wrongly and we need to control the perception of influence peddling in a potential news story.

Did we send the letter we talked about to Nick? Secondly, it is important to me that we document our actions regarding Nick's actions just in case there is ever a question raised about this issue.

Finally, I have asked that Mike attend the CC Advisory Council on my behalf. This is not an optional decision for Mike. He is the Chief of Staff and knows the budget issues as well as anyone. And, he needs to represent the Governor at this meeting. These people have set up an ambush on the K-12 funding and Mike needs to be prepared to deal with them effectively. Please pass this information on to Mike. Thanks,

Sir,  
I did not ask Walt if it was an ambush. I told him we were invited and asked what was the purpose so that we are best prepared to address their issues. He told me that is was a small group of high school students who want to express their support for school funding. He told me given the economic picture, there wasn't much the Governor could do. Based on that conversation, I determined it would not be an ambush as it was earlier described.

On another matter, I had a discussion today with Commissioner Lawrence Weekly and he reminded me that he invited you to visit his church and would like for you to visit one of these days. He will be with us at the freeway dedication and he may mention this to you.

Mike,

We are officially good to go for the trip, if the Governor would still like to travel.

Sunday, 18 May through Thursday 22 May.

We will depart the morning of the 18th so it would be best to have him RON in DC on Saturday night. If you can have his security or staffer drop him off at the River Entrance of the Pentagon around 0800-0830 (more specific time to come later) we will take him from there.

I will send out an email with a little more specifics on what to wear, bring etc....

Let me know if he is still interested.

Dear Chuck. I love your incisive comments and real world approach to conservative issues. You ALWAYS tell it like it is. In that regard I know that you do not know that blowhard Bruce James in a drunken stupor in DC. tried to molest one of my daughters. When I read his name in print it makes my blood boil. Governor Gibbons knows what happened and was told about it immediately after it happened about 5 years ago. Senator Ensign, Governor Guinn and then White House Counsel Alberto Gonzales were all aware of it as well. I chose, at the Counsel's request not to pursue action against the newly appointed federal printer but I will not see this deviant oaf back in the Nevada public eye without the truth being known and Mr. James being exposed for what he is. Please Chuck, if I do not have the correct email address above for the Governor, forward this to him. He may need a walk down memory lane before this sad incident comes back publicly to haunt those who were made aware of what undeniably (even by Mr. James) happened (and I am advised this was only the tip of the iceberg). I am prepared to keep Mr. James oversized skeleton in the closet, but not if he thinks for a minute it can be ignored like the crazy uncle in the attic.

Please honor your pledge to not raise taxes. Also, Las Vegas is a SANCTURY city with more than 300,000 illegal aliens . The sheriff protects them, which violates federal law and burdens our schools, hospitals etc, and costs 100's of millions of dollars to our budget deficit. ILLEGALS bring more CRIME and DRUGS to our community. Thanks for the drugs dogs being used on I - 15. I understand they are very busy. Your congressional voting record to secure our border and stop the illegal alien invasion was excellent. Please continue enforcing the laws as Governor and force AG Cortez to ENFORCE AB 383 which punishes employers of illegal/undocumented alien workers who take jobs from NEVADANS and keep wages and taxes low. Remember your oath of office to enforce ALL the law ( unlike the sheriff ) and remember that we ARE being INVADED by ILLEGAL ALIENS.

Dianne -

Please see the email trail concerning the BRP and whether it is subject to the open meet laws in Nevada. Gen Bath or I can give you in person how the issue was raised, if you are interested. Since the issue was raised outside the BRP, I thought it prudent to ask the Guard JAG for an opinion on it. His opinion is attached and doesn't say much, other than he thinks the BRP might be subject to the open meeting law. I know we don't receive any State Funding so that might be a mitigating factor, in addition we also dive into classified discussions on a regular basis and are really looking at how to expand the Federal missions that the Nevada National Guard performs and in so doing benefit the State with their State Missions. In any case, can you have Mr. Josh Hicks look into whether the BRP is subject to the opening meeting laws and whether we need to get an Attorney General's ruling. Thank you.

I will follow your direction and send the information to Governor's office for guidance. However the emphasis of the BRP is concerned with identifying the Vision for the Nevada Guard and its Federal Processes and Missions and transmit that to the Governor. Even though it was attributed to you as for how the issue of the Open Meeting Law was raised, it really doesn't matter how or who raised it, since it was raised outside the BRP. Thank you for your quick response.

Bill, I shared your message below with the JAG. The BRP proceedings were initiated by a Governor's Executive Order and therefore, if a formal AG opinion is sought it should be the Panel or the Governor's office requesting it. As neither I or the NG itself is officially part of the process, only certain members appointed by the Governor, it would not be me who asks for the opinion. It is also not my decision how you or the Panel chooses to proceed as, again, I am not part of that process. I suggest you ask for the opinion of the Governor's legal advisor, Josh Hicks, on how you should proceed. It is not I who asked for or raised the issue of the Open Meeting Law. It is my understanding that this issue was raised by Ron Bath. And, as the meetings that occur at the Guard are part of our Federal Processes and not part of a formal "State Public Body" established by State Executive

Gen

At a recent BRP meeting, it was mentioned that you were wondering if BRP deliberations and meetings were subject to the open meeting law, and so we sought clarification. Please find the attached opinion rendered from the NNG's JAG office concerning the subject.

Since LTC Blower, as a department legal advisor, suggests an AG opinion, if such an opinion is sought, we would defer that request to you at the cabinet level. The long term impact of his conservative interpretation may very well open up all meetings you and the other senior members of the NNG conduct within and for the State of Nevada's Military Department. Please note that the BRP does not receive any "Nevada Tax Revenues" for its purpose, and will only craft alternatives for the Governor, but on the other hand, the NNG does receive tax revenues for its state mission.

If you desire, we are prepared to post notice and open the meetings to whomever might appear. In my humble opinion it could open "Pandora's Box" to long time National Guard mis-contents, anti-military groups and the likes. But the BRP wants to be totally within the bounds of the law at all times, and never jeopardize the Nevada Military Department. My suggestion would be that since we normally are discussing most issues at the classified level, that you to take the position that we are not subject to the

requirement and that we press forward with our work. A middle ground alternative could be that we post notice and open the meetings once our report is ready to be forwarded to Gov Gibbons, but I am standing by to hear how you wish to proceed.

BG Fitch and BG Burks,

Attached please find my opinion concerning the BRP and Nevada's Open Meeting Law (OML). As I note, this is my first foray into this issue, and am certainly not an expert on the issue. However, my review of the statutes and Attorney General opinions leads me to conclude that the BRP may be subject to the OML. I recommend that the BRP seek an opinion from the Attorney General's office to get a ruling on this issue.

Rick, would you please provide an initial reading of the applicability of Nevada's Open Meeting Law as it relates to the Governor's Blue Ribbon Panel? The purpose is to then have the TAG make a decision as to how to proceed with respect to the BRP and Open Meetings in an unclassified venue. Will we need to get an opinion from the Attorney Generals office as well? Our next scheduled meeting is 21 May 08. Thanks...Bob

Well, the letter still needs to go out, because it is not a question of "not asking for the tickets", but rather that there was a request for better seating and Nick "accepted" the "free" tickets. It doesn't matter whether or not he "asked" for them. Nick has a rather influential position in the administration and the gift of tickets could be viewed wrongly and we need to control the perception of influence peddling in a potential news story.

Nick Mike and I met - Mike said he didn't think that Nick had done anything wrong - because Nick said he didn't - and because the cost of the tickets was not substantial. Nick said he just called his friend to get good seats and they offered the tickets - Mike said it was a he said she said situation and it could not be proven. So that's where it sits. He told Nick to write a letter saying that he did not ask for the tickets.

Dianne,

Did we send the letter we talked about to Nick? Secondly, it is important to me that we document our actions regarding Nick's actions just in case there is ever a question raised about this issue.

Finally, I have asked that Mike attend the CC Advisory Council on my behalf. This is not an optional decision for Mike. He is the Chief of Staff and knows the budget issues as well as anyone. And, he needs to represent the Governor at this meeting. These people have set up an ambush on the K-12 funding and Mike needs to be prepared to deal with them effectively. Please pass this information on to Mike. Thanks,

Dear Chuck. I love your incisive comments and real world approach to conservative issues. You ALWAYS tell it like it is. In that regard I know that you do not know that blowhard Bruce James in a drunken stupor in DC. tried to molest one of my daughters. When I read his name in print it makes my blood boil. Governor Gibbons knows what happened and was told about it immediately after it happened about 5 years ago. Senator Ensign, Governor Guinn and then White House Counsel Alberto Gonzales were all aware of it as well. I chose, at the Counsel's request not to pursue action against the newly appointed federal printer but I will not see this deviant oaf back in the Nevada public eye without the truth being known and Mr. James being exposed for what he is. Please Chuck, if I do not have the correct email address above for the Governor, forward this to him. He may need a walk down memory lane before this sad incident comes back publicly to haunt those who were made aware of what undeniably (even by Mr. James) happened (and I am advised this was only the tip of the iceberg). I am prepared to keep Mr. James oversized skeleton in the closet, but not if he thinks for a minute it can be ignored like the crazy uncle in the attic.

Your proven 100% reliable and honest friend and fan, John Mason

Dianne -

Please see the email trail concerning the BRP and whether it is subject to the open meet laws in Nevada. Gen Bath or I can give you in person how the issue was raised, if you are interested. Since the issue was raised outside the BRP, I thought it prudent to ask the Guard JAG for an opinion on it. His opinion is attached and doesn't say much, other than he thinks the BRP might be subject to the open meeting law. I know we don't receive any State Funding so that might be a mitigating factor, in addition we also dive into classified discussions on a regular basis and are really looking at how to expand the Federal missions that the Nevada National Guard performs and in so doing benefit the State with their State Missions. In any case, can you have Mr. Josh Hicks look into whether the BRP is subject to the opening meeting laws and whether we need to get an Attorney General's ruling. Thank you.

I will follow your direction and send the information to Governor's office for guidance. However the emphasis of the BRP is concerned with identifying the Vision for the Nevada Guard and its Federal Processes and Missions and transmit that to the Governor. Even though it was attributed to you as for how the issue of the Open Meeting Law was raised, it really doesn't matter how or who raised it, since it was raised outside the BRP. Thank you for your quick response.

Bill, I shared your message below with the JAG. The BRP proceedings were initiated by a Governor's Executive Order and therefore, if a formal AG opinion is sought it should be the Panel or the Governor's office requesting it. As neither I or the NG itself is officially part of the process, only certain members appointed by the Governor, it would not be me who asks for the opinion. It is also not my decision how you or the Panel chooses to proceed as, again, I am not part of that process. I suggest you ask for the opinion of the Governor's legal advisor, Josh Hicks, on how you should proceed. It is not I who asked for or raised the issue of the Open Meeting Law. It is my understanding that this issue was raised by Ron Bath. And, as the meetings that occur at the Guard are part of our Federal Processes and not part of a formal "State Public Body" established by State Executive or Legislative order or statute, the "State" open meeting laws do not apply.

Gen

At a recent BRP meeting, it was mentioned that you were wondering if BRP deliberations and meetings were subject to the open meeting law, and so we sought clarification. Please find the attached opinion rendered from the NNG's JAG office concerning the subject.

Since LTC Blower, as a department legal advisor, suggests an AG opinion, if such an opinion is sought, we would defer that request to you at the cabinet level. The long term impact of his conservative interpretation may very well open up all meetings you and the other senior members of the NNG conduct within and for the State of Nevada's Military Department. Please note that the BRP does not receive any "Nevada Tax Revenues" for its purpose, and will only craft alternatives for the Governor, but on the other hand, the NNG does receive tax revenues for its state mission.

If you desire, we are prepared to post notice and open the meetings to

whomever might appear. In my humble opinion it could open "Pandora's Box" to long time National Guard mis-contents, anti-military groups and the likes. But the BRP wants to be totally within the bounds of the law at all times, and never jeopardize the Nevada Military Department. My suggestion would be that since we normally are discussing most issues at the classified level, that you to take the position that we are not subject to the requirement and that we press forward with our work. A middle ground alternative could be that we post notice and open the meetings once our report is ready to be forwarded to Gov Gibbons, but I am standing by to hear how you wish to proceed.

BG Fitch and BG Burks,

Attached please find my opinion concerning the BRP and Nevada's Open Meeting Law (OML). As I note, this is my first foray into this issue, and am certainly not an expert on the issue. However, my review of the statutes and Attorney General opinions leads me to conclude that the BRP may be subject to the OML. I recommend that the BRP seek an opinion from the Attorney General's office to get a ruling on this issue.

Please honor your pledge to not raise taxes. Also, Las Vegas is a SANCTURY city with more than 300,000 illegal aliens . The sheriff protects them, which violates federal law and burdens our schools, hospitals etc, and costs 100's of millions of dollars to our budget deficit. ILLEGALS bring more CRIME and DRUGS to our community. Thanks for the drugs dogs being used on I - 15. I understand they are very busy. Your congressional voting record to secure our border and stop the illegal alien invasion was excellent. Please continue enforcing the laws as Governor and force AG Cortez to ENFORCE AB 383 which punishes employers of illegal/undocumented alien workers who take jobs from NEVADANS and keep wages and taxes low. Remember your oath of office to enforce ALL the law ( unlike the sheriff ) and remember that we ARE being INVADED by ILLEGAL ALIENS.

The following are some suggestions for your review. All are highly respected and have a supportive relationship with the Governor.

**Heather Murrin:** One of the most respected women in southern Nevada. Strong Wall Street background. Very knowledgeable in the healthcare area. Visionary leader of the Nevada Cancer Institute.

**Tony Alamo, Sr.:** Highly regarded former top executive with Mandalay Bay Group. Prominent Hispanic leader and with gaming background. Knowledgeable about many key aspects: purchasing, personnel, budgets. Long-time Gibbons backer.

**Carole Vilardo:** Nevada Taxpayers Association chief. Respected and has deep institutional knowledge about state finances. Her name has been mentioned prominently for a spot on the commission in the media.

**William Rogers:** Chief Financial Officer of Sierra Pacific Resources. Recommended by Tony Sanchez. West Point grad and former executive with Merrill Lynch. Good background in banking and energy.

**Steve Hill:** Headed one of largest building supply companies in southern Nevada. Very knowledgeable of the real estate market and strong supporter of the Governor.

**Luther Mack:** Very respected African American from northern Nevada. Successful business owner of several McDonald's restaurants in Reno/Sparks. Serves as a Director of Boyd Gaming and former chair of Nevada Athletic Commission.
